RE: Case dismissal 17 of February, 2017 # 16-10043-7

Dear Honorable Judge Tester:

I am the claimant of the Chapter 7 here mentioned. Sir I had to file bankruptcy at a time when I've lost everything. I do not have a lawyer nor can I afford one. I was trying my best to complete the forms and when I went to apply, I was given a hard time. I was emotionally distraught and finally I was allowed to apply. I asked if there were any other papers I needed and he said no that I would get a notice in the mail. I got the notice for the 25th of January and when I went to the hearing I was given a document that I was missing some papers. I was upset since he told me that I had all I needed. I had sent what I thought was needed in the notice I received for the 25th of January but was not advised of the additional papers needed with the fee until after. I do not drive I have no income and have to depend on my daughter to drive me from Rincon so the hearing was postponed and I sent the paperwork. I went through a lot to gather the information and although I was granted a waive of the fee, I was sent another document requesting a fee for the amended names I submitted. I sent the last of the documents that took me a long time to put together since I had no printer to download the documents finally able to get help along with a money order that my mother helped me with. The forms were received but the money order returned for $33.00 which was for the amendment fee but it said it was for $31.00 so I am including it here. The papers are in your office along now with the $31.00 that was the amount requested. I hope that it is the last of what was missing.

I ask you please your honor to give me another opportunity. I am lost and trying my best without legal representation to get through this very difficult time. I want to have the relief of the burden of such a huge debt I incurred and find work to start a new. It has been very difficult for me and my family. It is not what I want but I have no choice I do not have money to pay anyone or a lawyer. Please sir, reconsider the decision and allow me to have the protection that Chapter 7 provides. I do not have $1500 to pay a lawyer. I feel that anyone with that kind of money is really not bankrupt like I am. Your time and consideration of my case is deeply appreciated.

I certify that all those listed in my bankruptcy claim have been notified of my appeal for reconsideration of my case.

Respectfully,

Anita Quintana Sanchez
